< Divorces with foreign spouses (2014-2024) >

Purpose

- Marriage and divorce influence the change in the size and structure of population. Statistics of marriage and divorce are produced to be used as basic data when making policies.

 Basic data

- Reports of marriage and divorce are submitted to administrative district offices of Si (& Gu) or Eup (& Myeon) between January 1st and December 31st, 2024, according to the Statistics Act and the Act on Registration of Family Relations. These reports are used as basic data when producing statistics of marriage and divorce.

 Legal basis

- Designated statistics approved according to Article 17 of the Statistics Act (Approval No. 101003, Vital Statistics)

 Statistical terms

- Crude Marriage Rate (CMR)
:The crude marriage rate indicates the ratio of the number of marriages in a specific year to the mid-year population in that year. It is expressed as marriages per 1,000 population.
